

# Industry 4.0

## Introduction & workshop

# Industry 4.0

## Introduction & workshop

Industry 4.0 in SESAM context:

- Improve current best practice in manufacturing by the following:
  - The usage of existing technologies in a new way and combinataion (integration)
  - The usage of new technologies not seen yet

### Make Industry 4.0 operational

- Follow how to use technologies to improve productivity and effectiveness
- Follow development of new technologies that can make the fourth Industrial revolution

### Industry 4.0

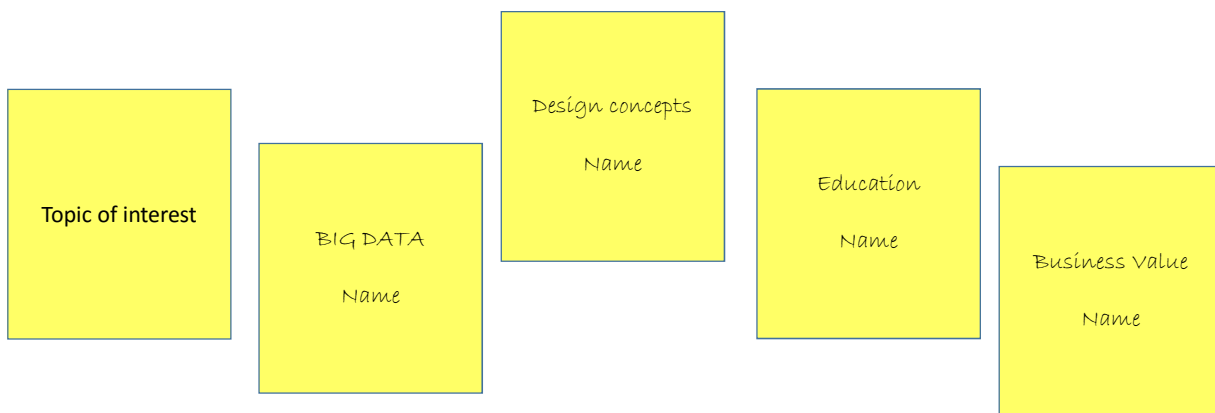

- Integration of different elements in a new way
- integration of processes, technologies and organisational/culture
    - Mechanic – IT
    - Delivery of automation – customer maturity

### Cooperation Projects

- Workshops
  - Technology
  - Business processes
  - Organisation & culture
  - Ressource management
- Cooperation with University
  - Ph.D project

# Industry 4.0

## Introduction & workshop

- Use 10 minutes to fill out the 3M notes with your wishes
- You can use Mind Map on the previous page
- Highlighting some individual input
- SESAM will use these inputs to determine Industrial 4.0 journey the next 2 years

# Tak for i dag

Tak til

- Schneider Electric for at I vil huse arrangementet i de fine lokaler.
- Foredragsholderne for nogle gode indlæg der har belyst udfordringerne i dag og i fremtiden i forhold til system integration
- Deltagerne for at I har været med til at gøre dagen spændende og levende.

# Kom godt hjem
